Let me be the first to welcome you to the Simply Amish family. We're close, in every sense of the word. Most of our craftsmen live in Central Illinois, where my family has lived for generations. We do more than sleep on this furniture. We dream about it. We don't just eat at it, we eat it up. We entertain with it, while designing and building it entertains us. I guess what I'm trying to say is that this furniture is more than our livelihood. It's our past, our future, and our passion.

That's why we sand and stain every bit of each piece entirely by hand. Our solid drawers extend fully, close softly, and are hand finished with dovetail joints in both the front and the back — so they will work and look the same generations from now. Our tables are sealed on the bottom to prevent warping, and like a work of art, every builder signs whatever he has crafted.

At Simply Amish, quality is first and foremost. It has to be. That's how we can offer you the guarantee shown below.

We know that you will love Simply Amish's fine, solid–wood furniture as much as we do once you bring it into your home. Again, welcome to the family.

LIFETIME GUARANTEE

Our promise is simple. If your furniture fails during normal household use in the lifetime of the original owner due to problems in either the workmanship or material, we'll repair or replace it for free, with the following exceptions:

Cabinet lights, as well as all finishes, fabrics and leather* are warrantied for one year; the moving parts in our wall beds, desk chairs and recliners are warrantied for three years; and, while we fully appreciate the beauty of unfinished furniture, we are unable to extend our warranty to any furniture that's not protected by our exceptional finish.

**Does not apply to damage caused by others or any defects resulting from abuse, alterations or accidents.*

This warranty applies only to normal household use determined solely at the discretion of the manufacturer. Liability for consequential property damage is excluded from this warranty.

Once a warranty issue is confirmed by Simply Amish, it is the responsibility of the original owner to return the piece to their nearest Simply Amish dealer. Simply Amish is not responsible for any transportation costs incurred by the original owner to return the piece to the nearest Simply Amish dealer or redelivery from Simply Amish dealer to the original owner. There is no charge for the cost of Simply Amish picking up the piece from Simply Amish dealer, repairing warranty issue, and returning to Simply Amish dealer. Simply Amish is sold through independently owned dealers, and Simply Amish has no control over their policy for picking up warranty related items at residences or businesses. This Lifetime Guarantee for workmanship or material cannot be transferred beyond the original owner.

If a Simply Amish product has issues not covered under our Lifetime Guarantee, our Returns department will assess the issue, provide a written estimate for the repair, and if work is approved by Simply Amish dealer, pick-up and redeliver the piece needing repair, to the Simply Amish dealer. Under no circumstances will Simply Amish pick up and redeliver to furniture owner. All transportation costs associated with picking up the product from owner's residence and returning to Simply Amish dealer, and redelivery from Simply Amish dealer to owner's residence is the purview of the owner and dealer.

Items for non-residential use are covered under a separate three-year limited warranty and cover items if they fail due to workmanship or materials. To qualify for this warranty, we need to know that the items ordered are for non-residential use. Some items ordered for non-residential use will not qualify for either non-residential use or residential use warranties.

So how do I keep this beautiful piece looking great for many years?

YOU DON'T HAVE TO BE OBSESSIVE. YOU JUST HAVE TO CARE.

This is how we take care of the solid-wood furniture in our homes:

TRUST

We know how much effort has gone into using the best products available to ensure a finish that will protect the wood craftsmanship of every piece. The finish we use is a polyurethane. One of the many superior aspects of our finish is that it is non-yellowing — unlike lacquer. Like a new car, baby it at your house for the first 30 days — giving the finish time to cure.

PLAY DEFENSE

We use placemats under rough plates, trivets to protect from the heat of serving dishes, and a tablecloth when we are serving large groups. Do not use plastic or rubber items on our furniture for long periods of time. Our finish could have a reaction to the rubber or plastic that would not be covered under warranty.

Outside the dining room, we don't use coasters. We just wipe off any condensation when we're done. We are mindful that any piece used as a work surface could be permanently etched if someone is pressing too hard with a pen or pencil, and pad these surfaces accordingly. We also try not to leave something sitting on our solid-wood furniture for a long time if that piece gets a lot of sun. Some woods, like cherry, tend to change color over time when exposed to light.

STAY COMFY

Just like us, solid wood furniture is always breathing. Very high levels of humidity can lead to warping and swelling, while very dry air may cause shrinking or cracking. If we are not comfortable with the humidity level, neither are our Simply Amish pieces. We maintain the level of humidity in our homes at around 35 percent.

DON'T WORRY

Just wipe. Things get spilled on our furniture. It happens. We just wipe it off as soon as we are aware of it. The finish does the work. Only prolonged exposure to moisture will damage the furniture.

HOLD THE CHEMS

We've added Aristo Shield protective polish, available from your Simply Amish dealer. Aristo Shield dusts, cleans, and helps protect the surface from scratching and marring. It removes smudges and fingerprints. When used routinely, its anti-static additive reduces dust build-up. Aristo Shield is available in dark, which will work on most colors, including natural.

PLEASE DO NOT USE ON WHITE COLORS.

YOUR FURNITURE. YOUR WAY.

When we say "custom-built" we mean it. At Simply Amish, you choose the wood, the stain and every other element that goes into making your selection unique. We don't start construction until we receive your order. From that point forward, your furniture is tracked by your name, so that each craftsman knows the person they're building for. And in the rare event that your furniture needs warranty work, all you have to do is get the item back to one of our authorized dealers and we will take it from there to make sure the issue is resolved.

To learn more about Simply Amish and the unique way we build every piece of furniture, visit our website, **SimplyAmish.com**, where you will find an extensive collection of short videos covering our options, features, and benefits.

MANY STYLES. ONE STANDARD.

Simply Amish isn't a style. It's a standard of excellence — desired by many and practiced by a rare few. It's in the fine details of solid hardwood drawers, finished inside and out to protect delicate clothing from damage. It's in the skill of genuine Simply Amish craftsmen, faithfully passed down from one generation to the next. But most of all, it's in the beauty of America's richest hardwoods, handcrafted in a thousand different styles — from country cabinets that are the hallmark of Americana, to contemporary designs that say, "Move over, Herman Miller, Simply Amish is in the house."

With Simply Amish furniture, you're the ultimate designer. We make recommendations, but you make the call — choosing the wood, stain and hardware that make your selection complete. We'll even work with you beyond the options you see in this catalog, giving you the ability to create a wooden work of art that's truly one of a kind.

And, like a work of art, our pieces are hand signed by the craftsman. A custom Simply Amish nailhead is affixed to every authentic Simply Amish piece of furniture and the customer's name can also be inscribed on the label.

The Simply Amish Custom Design Center. When you don't know where to start, start here. See your nearest Simply Amish dealer for a firsthand look at the various wood, stain, fabric and hardware options available for your selection.

PLACE YOUR ORDER. IN ANY ORDER YOU WANT.

While the following steps offer a simple way to complete the ordering process, you're welcome to mix things up. Start with your choice of wood, or build your order around an amazing piece of fabric. As long as we get the information we need, we'll make sure you get what you want.

1

SELECT YOUR FURNITURE.

Your furniture. Your house. Your choice. Choose from thousands of catalog pieces or design your own. Custom building ensures that everyone gets the perfect piece in the perfect style — their own.

2

SELECT YOUR WOOD & FINISH.

And by "wood," we mean real wood. Not plastic or particleboard. See your nearest Simply Amish showroom for actual samples to help you pick the right wood and finish.

Note: Some colors can add 5% or 10%. Please refer to the samples or the Simply Amish website — SimplyAmish.com

3

SELECT YOUR HARDWARE.

Nickel, brass, copper, iron, or wood. Burnished, brushed, polished, hammered, blackened or weathered. So simple, we should call it "easyware."

4

SELECT YOUR FABRIC.

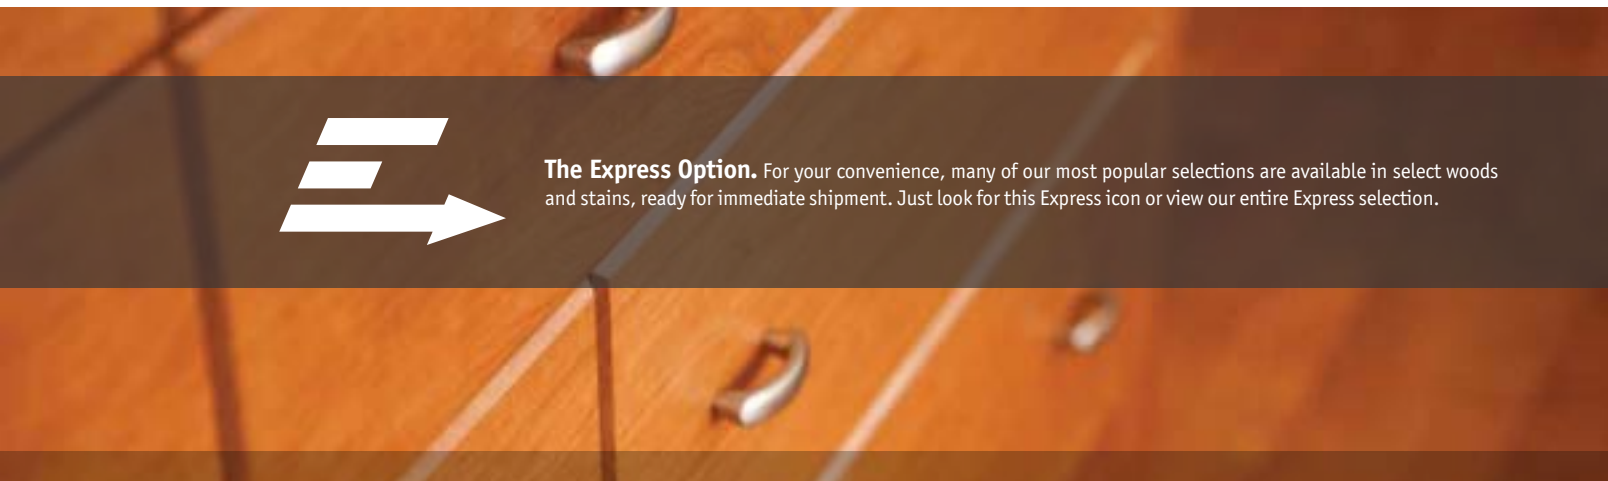
Looking for something to complement your new furniture? Choose from our great selection of designer fabrics or bring us your own. And then invite some people over.

Note: *Customer supplied (COM) fabric yardages are estimated on product pages. Since fabric repeats can vary, if there's a question, please call for specifics. Unused COM fabric will not be returned. Items purchased with COM fabric are priced as grade 3.*

5

PLACE YOUR ORDER.

Our staff can guide you through the order placement process. Remember, this is custom, and our artists are pretty particular about having the correct information to work with.



The Express Option. For your convenience, many of our most popular selections are available in select woods and stains, ready for immediate shipment. Just look for this Express icon or view our entire Express selection.

Hardwoods and Softwoods

There are two major types of wood used in furniture manufacturing — hardwoods and softwoods. Softwoods are less durable than hardwoods but more plentiful, partly because they tend to grow at a much faster rate. They're also less expensive, providing a preferable alternative to particle or fiberboard. Common softwoods include pine, fir, spruce and cedar.

Known for their strength and durability, hardwoods are usually found in higher-quality furniture. At Simply Amish, we only use northern, slow-growth hardwood, chosen for the greater density typical of wood grown in colder climates. Grown and harvested in the USA, the use of these beautiful hardwoods helps support the local economy without adding to the problem of rainforest depletion. Choose from red oak, white oak, maple, cherry, hickory and walnut.

Layered For Strength

There are some cases where solid wood panels aren't practical, simply because the seasonal contraction and expansion would destroy the integrity of the joints. In these cases, we still use hardwood — just in a plywood form, layering multiple panels in a cross-grain build for maximum structural stability. This wood is most typically used in shelves, cabinet backs, and on cabinet sides without a flat or raised panel.

Distinguishing Finish From Wood

Sometimes things are not as they appear. For example, "cherry finish" may mean only that a piece of furniture has a reddish stain or a finish similar to cherry wood, even though it contains no real cherry at all. We don't do that. If you're in the market for solid hardwood furniture, ask for it by name.

Quartersawing Technique

Quartersawing is simply a cutting technique used to achieve a finished appearance different from the typical flatsawing technique. Quartersawing involves cutting a log into quarters, then cutting boards alternately from the two flat sides of each quarter. This process produces a combination of parallel line patterns and varied figuring that many connoisseurs of fine wood furniture find appealing. Oak cut in this manner is commonly called "tiger oak" and is traditionally found in the Arts & Crafts style of furniture.

SimplyAmish.com/videos

A WORD ABOUT WOOD.

There are varying degrees of quality when it comes to furniture production. Some use particleboard in places where they think you won't look — and cardboard in places where they just don't care. But that's not the Simply Amish way. At Simply Amish, we use only the finest northern hardwoods, raised to perfection and slowly kiln-dried to prevent splitting and provide years of reliable use.

Solid wood expands and contracts. Therefore, measurements may vary ±¼".

CHARACTER GRADE WOOD.

Character cherry, character hickory, and character quartersawn white oak have all the characteristics of the premium grades, plus a few more. Harvested from the same tree as its premium counterpart, character wood is simply a different grade — one with more knots, some small cracks, variations in the grain, and more, well, character.

Character hickory and character quartersawn white oak are priced the same as their respective premium grades, while character cherry is priced separately from cherry.

Standard Hickory

Character Hickory

FILLED KNOTS are STANDARD on character grade table tops, case goods tops, desk tops, chair seats, and bench seats. Character Wood will have OPEN KNOTS on the rest of the piece.

SELECT FROM 6 POPULAR HARDWOOD CHOICES.

Red Oak
Quercas Rubra

Red oak is a very popular hardwood, chosen for its traditional, coarse-textured look, as well as its excellent durability and strength. It accepts stain consistently and wears very well over time, making red oak a good choice for furniture that will see heavy everyday use. Natural color varies from yellow to pale brown, often with a light reddish tinge.

White Oak
Quercas Alba

White oak, like red oak, is a hard and durable wood known for its excellent wear resistance. It features a medium to coarse texture and ranges in color from light tan to nearly white or soft grey. At Simply Amish, we primarily use quartersawn white oak for its distinctive aesthetic, but we now also offer plain sawn white oak as an additional option.

Maple
Acer Rubrum
Acer Saccharinum
Acer Saccharum
Acer Nigrum

Maple, sometimes called brown maple, is a straight-grained, fine-textured wood. Derived from red or silver maple trees, maple has roughly the same density as cherry, with colors usually ranging from light cream to pale brown with occasional dark streaks.

Premium maple is used when certain finishes are selected. Premium maple, or rock maple, comes from sugar or black maple trees. It's a tough, moderately heavy wood with a fine and uniform texture. Hard maple finishes very smoothly and is extremely durable. Its natural color varies from nearly white to light tan, with an occasional reddish tinge.

Cherry
Prunus Serotina

Cherry is a dense, even-grained wood, widely considered to be the finest of the fruitwoods. It is prized for its beauty and considered an excellent choice for both formal and casual applications. Natural coloration varies from a light cream to a dark reddish brown; however, cherry can darken considerably with age, developing a deep, rich patina over the course of several years.

Hickory
Carya Spp.

Hickory is a close-grained wood that's often nearly white in color. It's also one of the hardest, heaviest and strongest woods found in the United States. Because of its flexibility and resilience, hickory is commonly used in the construction of chairs and other bentwood furniture.

Walnut
Juglans Nigra

Walnut is a dense wood, ranging in color from light- to deep-chocolate brown. The black walnut tree produces one of the finest cabinet woods. Slow-growing and highly desired, walnut is more expensive than many other woods.

Unless otherwise stated, our furniture is available in all six of our popular wood selections. See item descriptions for any limitations on wood choices.

BRING OUT THE NATURAL GRAIN BY ADDING DEPTH AND COLOR

Giving your home a perfect color palette goes beyond paint. From a deep rich Mocha Nut to a bright golden Autumn Haze, with over 170 wood/stain combinations, Simply Amish has the look you desire.

PREMIUM STAINS

Most of our finishes are standard wiping stains and are included in the base price of the item. However, select colors are premium, multi-step finishes and carry a 5% to 10% upcharge, depending on the specific color. Please refer to the labels on your Design Center samples for details. When using our Pricing App or SYO Configurator, any applicable charges are automatically calculated.

OCS STAINS

Although we prefer to use our own specially formulated stains, we do also work with the OCS approved line of stains. Charges may apply, depending on the color. Please provide the OCS name and number.

STAIN MATCHING – OPTION

Stain matching is not an easy thing to do. The wood itself will vary in color and even change color over time making stain matching more difficult and time consuming on a new piece of wood. For stain matching, an initial photo, along with a custom quote request, will need to be sent to quotes@simplyamish.com. A physical sample of the original piece will also be required for matching.

Available by Custom Quote.

CUSTOM OPAQUE COLORS MATCHED TO BENJAMIN MOORE OR SHERWIN WILLIAMS – OPTION

We custom match Benjamin Moore and Sherwin Williams paint colors using our durable colored polyurethane. Unlike paint, our colored polyurethane won't peel or chip, and each piece is finished with a protective clear coat for added durability.

Because swatches can vary slightly, we require that you send us the actual color swatch to ensure an accurate match. No custom quote is necessary. add 10%

TWO-TONE – OPTION

We offer 2-tone options on most of our product. In most cases, it will be the "removable" portion of the item that can be made a different color — chair seats, table tops, case tops, doors, or drawer fronts. Mixing two different woods is also available as an option for most of our product. See our price list for availability.

FIRST ACROSS THE FINISH LINE You never know what some drip will drop. That's why we protect all of your furniture with a sealant that makes it practically impervious to water, nail polish remover, and alcohol. Of course, being Amish, we're just guessing on the last two.

POLYURETHANE FINISH — STANDARD

At Simply Amish, we believe that if you're going to build a piece of furniture that will last generations, then that furniture deserves to have the best finish possible. We use a non-yellowing, polyurethane, which is one of the best finishes in the industry.

Polyurethane is a durable, protective finish that enhances the beauty of wood while helping to shield it from scratches, moisture, and everyday wear. Its clear, smooth coating brings out the grain's natural richness and provides long-lasting resistance to stains caused by most household liquids—making it an ideal choice for furniture that's built to be both beautiful and lived in.

LOWER SHEEN — OPTION

Unless otherwise specified, our furniture is finished with our standard sheen (30°).
We also offer a lower sheen.

add 5%	**JM05DS**	Low Sheen (5° Matte)

TOUCH-UP & REPAIR KITS

A fast and easy way to touch up minor scratches or damage for most of our stains. Each kit contains a marker, Fil-Stik, and white synthetic pad.

See the price list for available colors, or order online at SimplyAmish.com.

SURFACE TREATMENTS

If you like options, then you'll love us! In all, we offer more than 170 combinations of woods and stains, along with additional surface treatments like distressing and wire brushing, which helps to create the subtle look of a family treasure gently worn by time.

WIRE BRUSHED — OPTION

Distressing with a wire brush reveals the unique wood grain of your piece, highlighting the enchantment obtained from synthesizing weathered wood with refined design. When you order the Wire Brushed Option, we apply our low sheen finish.

Please note that wire brushing enhances the grain texture and may subtly alter the appearance of your chosen color.

Available on Hickory, Oak, and Quartersawn White Oak.

Wire Brushed charges add 15% **JMOWB**

ROUGH SAWN — OPTION

Rough Sawn typically produces two surfaces with more Rough Sawn marks than other parts of the board. As a result, not every part of the surface of a board will exhibit remnants of the technique. We suggest ordering Rough Sawn with a lower sheen (5°).

Available on all woods and on most items. The treatment will be applied to flat surfaces. Live Edge tops require a custom quote. Not available on chairs.

Rough Sawn charges add 10% **JMORS**

PLANK TOP — OPTION

Our plank width wood is glued up like a normal top, and then we cut a groove in the top of each glue joint, the length of the top, to accentuate the plank. This, in essence, eliminates the contraction and expansion of each individual board that comes with plank tops using tongue and groove joinery.

Please note that our plank tops feature boards of varying widths. If you prefer uniform-width planks across the entire top, a custom quote is required.

Available on all woods; top surfaces only.

Plank Top charges add 10% **OLP**

OLDE WORLD Our Olde World aging process invigorates our furniture, revealing facets that normally take a hundred years to create. Don't worry about the first ding. It's the least we can do. Our craftsmen painstakingly create an aged appearance into the wood that will arouse your senses, without compromising the structural integrity of your furniture.

OLDE WORLD A-LEVEL AGING — OPTION

A-level aging includes hand planing, which creates an uneven surface and various other textures unique to each piece of wood, producing remarkable character with worm holes, faux cracks, tasteful dents, and time worn edges.

Available on all woods.

Olde World "A" level charges	add 20%	**OW-A**

OLDE WORLD B-LEVEL AGING — OPTION

B-level aging is a less obtrusive aging process. Level B includes all of level A with the exception of hand planing. The surface remains level, but the process still features worm holes, faux cracks, tasteful dents and time worn edges.

Available on all woods.

Olde World "B" level charges	add 15%	**OW-B**

OLDE WORLD C-LEVEL AGING — OPTION

C-level aging consists only of a few time worn edges, and on the appropriate opaque colors will also feature our "rub through" which mimics an older finish showing through the paint in the age worn areas of each item. This level is used mostly with paint colors for the rub through effect. We don't recommend C-Level with transparent or semi-transparent stains.

Available on all woods.

Olde World "C" level charges	add 10%	**OW-C**

All upcharges are to be added to the base price of the item, in the wood of your choice. You don't need to add the markup to any additional options. Olde World distressing is available with all woods and stains. Select stains require an additional 5% or 10% charge.

STANDARD FEATURES All furniture is not created equal. At Simply Amish, we pride ourselves on the use of premium-quality hardware, construction techniques, and joinery in the production of all our furniture.

BLUM SMARTSLIDES – STANDARD

Exceptional drawers require exceptional hardware. That's why our drawers feature heavy-duty slides that allow the drawer to fully extend. The slides are fully enclosed and mounted from below, creating an unobstructed view of our solid dovetail construction. SmartSlides also feature an advanced mechanism that prevents slamming by soft-closing each drawer when it reaches a few inches from the cabinet.

Our slides are simple to adjust. Instructions can be found online at ***SimplyAmish.com/pages/adjusting-drawer-slides***

SOFT-CLOSE HINGES – STANDARD

Like our SmartSlides, our soft-close hinges provide a smooth, silent close... no matter how hard the door is closed. Our concealed, soft-close hinges now come standard on all cabinet doors.

Our hinges are simple to adjust. Instructions can be found online at ***SimplyAmish.com/pages/adjusting-door-hinges***

HIGH-QUALITY DRAWER BOXES – STANDARD

Drawers take a lot of abuse as you open and close them almost daily. All of our drawer boxes are constructed of 5/8" thick solid hardwood. Our drawer boxes are dovetailed front and back and the drawer bottom is inserted into a groove to form a captive bottom after all 5 pieces are glued and compressed together. Each drawer is then sanded and finished smooth to preserve its natural beauty and ensure a lifetime of worry-free operation.

ONE-PIECE DRAWER FRONTS – STANDARD

Our drawer fronts are one piece with no glue lines up to 8½" (Excludes character woods). We also finish the front prior to attaching it to the drawer box.

Please note: Quartersawn white oak drawer fronts are made from a single piece of wood up to 5½" wide. For widths over 5½", a glue joint is necessary due to the limited availability of wider quartersawn white oak boards.

LUXURIOUS FINISH – STANDARD

With seven Northern hardwoods and a wide selection of colors, you can choose from over 170 standard wood and stain combinations—plus an extensive range of OCS finishes and custom opaque colors matched to Benjamin Moore or Sherwin Williams.

Our dining table tops get three coats of finish, making them resistant to water, alcohol, and nail polish. The undersides of our dining tables are finished to prevent snags on clothing and to seal the wood to prevent warping and cracking.

SEALED EDGE GRAIN – STANDARD

We seal the end grain with a special sealant to eliminate moisture transfer and help prevent warping.

DADO JOINERY – STANDARD

For a stronger, long-lasting structure.

DOWEL JOINERY – STANDARD

To ensure structural integrity for the life of your product, we use engineered dowels in our casegood frames that absorb glue better. Screws are used only as secondary support.

MORTISE & TENON JOINERY – STANDARD

Some of our pieces employ mortise and tenon joinery. Screws are used only as secondary support.

And in the rare event that your furniture needs warranty work, all you have to do is get the item back to one of our authorized dealers and we will take it from there to make sure the issue is resolved.

BEDROOM FEATURES All furniture is not created equal. At Simply Amish, we pride ourselves on the use of premium-quality hardware, construction techniques, and joinery in the production of all our furniture.

SAFETY STANDARD FOR CLOTHING STORAGE UNITS

Our bedroom clothing storage units have been modified to be compliant to the new ASTM F2057-23 Standard for Clothing Storage Units. In order to be compliant we've added a new mechanism that interlocks drawers so that you're unable to open all drawers at one time. Along with the interlocking mechanism, some clothing storage units will also have added counter weight to pass the new standard.

HIGH-QUALITY BED HARDWARE – STANDARD

Our wooden bed frames connect with non-glued dowels and a heavy steel bolt anchored by an engineered nut. We supply a wrench for tightening the bolts should they loosen. Angle Iron runs the length of the rails to strengthen the rail and support the slats.

Replacement bed hardware can be ordered.

Extra Bed Hardware (1 complete set) — KA0HNB

FIVE SLATS – STANDARD

Each of our beds come with five wooden slats to support your mattress foundation. On queen beds three of the slats will have additional support feet. On king and California king beds all 5 slats have additional support feet. These slats are supported on the side rails by the angle iron.

ADJUSTABLE BED FRAME?

Our beds are made with enough space between the side rails and the headboard and footboard to accept most adjustable frames without custom ordering. In most cases all you have to do is remove the steel rail from each side rail, which is as easy as removing about 12 screws. We would recommend that you then store those parts somewhere safe, in case you ever want to convert this bed back to a normal foundation.

In some cases the adjustable frame may be too large and we'll need to customize the bed for you. We recommend that you always check your foundation specifications to see how much space is required before ordering the bed from us, so we can make sure it's the right size for you.

BEDROOM OPTIONS

UNDER-BED STORAGE – OPTION

Due to the popular nature of under-bed storage, we have carefully designed ours so it can be added to almost any of our beds. Please check specific beds for information on which beds can accept our under-bed storage.

Under-bed storage is sold separately from the headboard and footboard. The desired bed must be purchased as well. If under-bed storage is ordered to be used on a headboard with wood frame, the footboard height is increased to accommodate the drawer units.

LIFT-BED STORAGE — OPTION

Lift-Bed Storage offers the ultimate convenience by providing easy access to a spacious, hidden compartment for stowing away bedding, clothes, and other items, helping to keep your room organized and clutter-free. Add to any bed with a Headboard Only option. Assembly Required.

WIDER WOOD FRAME — OPTION

NEW

Wider side rails are a smart, stylish modification, offering a bold look, providing added visual weight and structure to the frame of the bed.

OSBABF **Modify Wood Frame to 18" Overall Height with 5½" Clearance from Floor (Rails 12½"w)**

ROLLED SLATS — OPTION

Looking to lower the height of your mattress? Order our rolled slats option and you will receive everything you need to put your mattress directly onto any of our beds, eliminating the need for traditional box springs. When selecting this option, you may consider altering the height of your headboard, depending on the style.

Side rails on standard Simply Amish beds have an 8" clearance. With slats installed, your foundation will be just 9" off the floor. 2" gaps between the wooden slats.

KAORS-99 **Slats only (Does not include bed frame)**

TALLER/SHORTER HEADBOARD — OPTION

We've added options that allow you to increase or reduce the overall height of some headboards and footboards up to 8" either way, in ½" increments. Check price list for availability.

HEADBOARD ONLY — OPTION

When a headboard is all you want, it's all you'll need to order. Just select the style of your choice and order the headboard only. There are also options available to customize the height.

This will require the purchase and installation of mounting brackets to attach an existing frame. **There are no pre-drilled holes**, allowing you to use the hardware of your choice.

JMAP61 **Optional Adapter Plate**

UPHOLSTERED HEADBOARD — OPTION

By adding fabric or leather to select headboards, create a dramatic custom headboard.

BUTTERFLY LEAVES

Butterfly leaves are physically attached to the table and manually unfold from a central storage compartment. Available on leg, single pedestal and trestle tables. Standard on island tables.

24" & 32" STATIONARY BUTTERFLY LEAVES

The stationary butterfly leaf will be found in trestle tables, leg tables, and island tables except where otherwise noted. Stationary butterfly leaves come in different sizes, with the trestle tables having the largest leaf coming in at a record setting 32" wide. The leg table comes in second with a 24" wide leaf. The Island Tables feature an 18" wide leaf.

LIFTING BUTTERFLY LEAF

The lifting butterfly leaf allows for more tables to accommodate butterfly leaves without spoiling the beautiful design of the table. Found in single pedestal tables, lifting butterfly leaves don't have aprons due to space restrictions in the tables using this leaf. The lifting butterfly leaves featured in our single pedestal tables are 18" wide.

END OF TABLE BUTTERFLY LEAF

The end of table butterfly leaf utilizes a heavy duty table slide that transfers the stored leaf out from under the end of the table and then supports the weight of the extended leaf and your fabulous spread as well. The end of table butterfly leaves are 18"wide. Tables with this leaf will feature one on each end, adding 36" total length to your dining surface. This option is only available on a select few tables, mainly because it requires the end of the table to be mostly square so that the leaf lines up without large gaps. End butterfly leaves do not have aprons. The tables we offer this leaf on will also have limited edge profile options. **These leaves feature adjustments to keep your leaves level.**

FABRICS & LEATHER

Fabrics:

Fabrics are assigned grades. The higher the grade, the more expensive the fabric will be, though not necessarily the higher the quality of the fabric. Several factors go into the pricing of fabrics. Higher grade fabrics may require more material due to pattern matching or may involve a more expensive process to make that particular fabric. The first number in the fabric SKU is the grade.

Occasionally, we can combine grades into a single price point, while other times each grade needs to be priced individually. Fabric prices for each item can be found in the Pricing App.

Many of our fabrics are Performance Fabrics, which are more resistant to stains and can be cleaned more easily.

You may supply your own fabric (COM — Customer's Own Material). Please, check the catalog for the quantity of fabric needed for each item. Excess fabric will not be returned. COM is charged at grade 3.

Leather:

We use top grain leather that will last a long time. Certain colors may cost more. Our leathers are graded C through F. COL (Customer's Own Leather) requires a custom quote.

For a complete list of our available fabrics and leather, go to ***SimplyAmish.com/pages/current-fabrics***.

CUSTOM QUOTES

Too big? Too small? Need a different drawer configuration?

Quotes are something we do every day! From making changes in current items to creating something truly unique—it's what we do. If you don't find what you need in the price list, just fill out and send in a custom quote request.

Be aware that CUSTOM is almost always going to cost more. Whenever we need to alter a piece, effort must go into re-engineering that piece to the custom specifications. We do not give quotes over the phone. Please, email or fax a completed Custom Quote Request and we will email or fax back the final quote so that we both have the information in writing before you place an order.

See our website, or the front of the price list, for a copy of our Custom Quote Form.

QUICKSHIP/EXPRESS (BEGINNING ON PAGE 456)

Because idle hands are the devil's workshop, we build some of our most popular pieces in advance.

You can't rush perfection. But at Simply Amish, we've discovered that you *can* nudge it along. Providing the same exceptional quality that you'll find in our regular line—in a much shorter time. The custom look without the custom wait. We have two programs to help you get select pieces of furniture faster than a normal order.

With Express, the items will be in stock in our most popular wood and stain for that item. With QuickShip, we take it one step further - the product will be available in a specific wood, and you get to choose from a variety of finishes to ensure that what you get will best complement your style. That's the only difference. Every amazing piece is still cut from the same beautiful hardwoods, hand-crafted and signed by the skilled artist who built it, and backed by our lifetime guarantee. The only thing you're losing is the wait.

Express

The items in our **Express** program are available in the wood and finish specified within this section. All these pieces are in our warehouse and available for immediate delivery. Items in our **Express** program will ship the fastest.

QuickShip

For our **QuickShip** program, we keep much of our **Express** dining furniture on hand – unfinished. This allows you to select the finish you want without having to wait for your furniture to be built from scratch. Choose any finish specific to the wood species shown.

SimplyAmish.com/videos *A current list of On-Hand Express items is available in the Dealer Resources section of our website.*

HARDWARE Drawer pulls and other elements provide the final touch to your Simply Amish selection. Most of our furniture is available in your choice of hardware options, although some may require a slight additional charge. If you would like to supply your own hardware, we would be happy to install it for you.

Simply Amish sources only from high end hardware suppliers to provide the highest quality hardware available. Particular hardware is assigned to each collection and can be found on the first page of each collection in this catalog.

Hardware varies in price. The price group that a piece of hardware belongs to is indicated by the letter in the middle of the hardware SKU—"A" being the least expensive. Because you're able to order any of our hardware, you aren't limited to the standard hardware assigned to any collection. Hardware of the same price level or lower can be substituted at no charge.

If you want to upgrade to a higher level hardware, the upgrade price can be found in the front of the price list and will be applied for each piece of hardware on the item. You may also supply your own hardware. There is no credit for existing hardware if you upgrade or supply your own. Extra hardware may be purchased separately.

There's a hint of the Old West in our character cherry, wire-brushed Sheffield Bedroom. With 5 degree sheen, the wood looks reclaimed. Fake out! It sports brand new wood, with precise angles, drawers that are English dovetailed set on undermount full extension, soft close drawer slides. Did you hear the swinging doors of a saloon? Is that an out of tune upright piano being mauled by a cowboy? Maybe it's a mental tumbleweed skittering across your mind.

BEDROOM FEATURES All furniture is not created equal. At Simply Amish, we pride ourselves on the use of premium-quality hardware, construction techniques, and joinery in the production of all our furniture.

SAFETY STANDARD FOR CLOTHING STORAGE UNITS

Our bedroom clothing storage units have been modified to be compliant to the new ASTM F2057-23 Standard for Clothing Storage Units. In order to be compliant we've added a new mechanism that interlocks drawers so that you're unable to open all drawers at one time. Along with the interlocking mechanism, some clothing storage units will also have added counter weight to pass the new standard.

HIGH-QUALITY BED HARDWARE – STANDARD

Our wooden bed frames connect with non-glued dowels and a heavy steel bolt anchored by an engineered nut. We supply a wrench for tightening the bolts should they loosen. Angle Iron runs the length of the rails to strengthen the rail and support the slats.

Replacement bed hardware can be ordered.

Extra Bed Hardware (1 complete set) — KA0HNB

FIVE SLATS – STANDARD

Each of our beds come with five wooden slats to support your mattress foundation. On queen beds three of the slats will have additional support feet. On king and California king beds all 5 slats have additional support feet. These slats are supported on the side rails by the angle iron.

ADJUSTABLE BED FRAME?

Our beds are made with enough space between the side rails and the headboard and footboard to accept most adjustable frames without custom ordering. In most cases all you have to do is remove the steel rail from each side rail, which is as easy as removing about 12 screws. We would recommend that you then store those parts somewhere safe, in case you ever want to convert this bed back to a normal foundation.

In some cases the adjustable frame may be too large and we'll need to customize the bed for you. We recommend that you always check your foundation specifications to see how much space is required before ordering the bed from us, so we can make sure it's the right size for you.

BEDROOM OPTIONS

UNDER-BED STORAGE – OPTION

Due to the popular nature of under-bed storage, we have carefully designed ours so it can be added to almost any of our beds. Please check specific beds for information on which beds can accept our under-bed storage.

Under-bed storage is sold separately from the headboard and footboard. The desired bed must be purchased as well. If under-bed storage is ordered to be used on a headboard with wood frame, the footboard height is increased to accommodate the drawer units.

LIFT-BED STORAGE — OPTION

Lift-Bed Storage offers the ultimate convenience by providing easy access to a spacious, hidden compartment for stowing away bedding, clothes, and other items, helping to keep your room organized and clutter-free. Add to any bed with a Headboard Only option. Assembly Required.

SBLIF-43S2	**Lift Storage Bed, King**	*Internal Depth:*
SBLIF-43S3	**Lift Storage Bed, Queen**	*9½" from metal frame to floor.*
SBLIF-43S4	**Lift Storage Bed, Full**	*Not available in CA King.*
SBLIF-43S5	**Lift Storage Bed, Twin**	*Ships in 5 pieces.*

WOOD FRAME — OPTION

No Footboard, No Problem. For those of you who like to hang your feet off the bed we have a solution for you. Most of our beds can be ordered with a wood frame which will eliminate the footboard giving you ample room to stretch out.

WIDER WOOD FRAME — OPTION

NEW

Wider side rails are a smart, stylish modification, offering a bold look, providing added visual weight and structure to the frame of the bed.

OSBABF Modify Wood Frame to 18" Overall Height with 5½" Clearance from Floor (Rails 12½"w)

ROLLED SLATS — OPTION

Looking to lower the height of your mattress? Order our rolled slats option and you will receive everything you need to put your mattress directly onto any of our beds, eliminating the need for traditional box springs. When selecting this option, you may consider altering the height of your headboard, depending on the style.

Side rails on standard Simply Amish beds have an 8" clearance. With slats installed, your foundation will be just 9" off the floor. 2" gaps between the wooden slats.

KAORS-99 Slats only (Does not include bed frame)

TALLER/SHORTER HEADBOARD — OPTION

We've added options that allow you to increase or reduce the overall height of some headboards and footboards up to 8" either way, in ½" increments. Check price list for availability.

HEADBOARD ONLY — OPTION

When a headboard is all you want, it's all you'll need to order. Just select the style of your choice and order the headboard only. There are also options available to customize the height.

This will require the purchase and installation of mounting brackets to attach an existing frame. **There are no pre-drilled holes**, allowing you to use the hardware of your choice.

JMAP61 Optional Adapter Plate

UPHOLSTERED HEADBOARD — OPTION

By adding fabric or leather to select headboards, create a dramatic custom headboard.

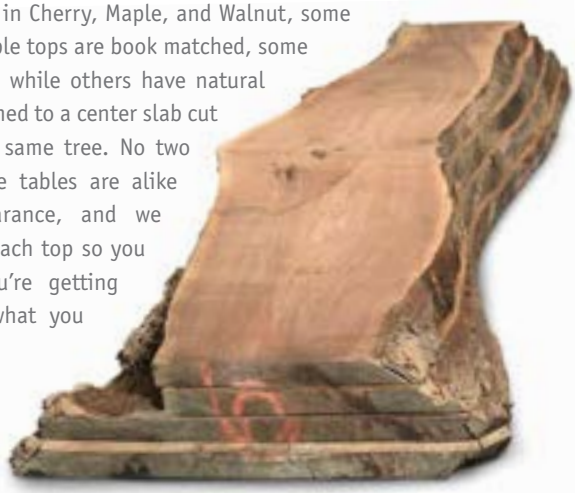
All of the Northern Hardwood trees we utilize for our Live Edge furniture are responsibly harvested, ensuring you the most beautiful, durable, and sturdy Live Edge tables available.

SHOWN IN WALNUT, NATURAL

Available in Cherry, Maple, and Walnut, some of our table tops are book matched, some are solid, while others have natural edges joined to a center slab cut from the same tree. No two Live Edge tables are alike in appearance, and we number each top so you know you're getting exactly what you see.



Let's not forget the base.

These tops are a bit too heavy to hold with one hand and carve that Beef Wellington with the other. Simply Amish offers a wide range of trestle and double pedestal bases for our custom Live Edge tops. After you select the perfect top, you will be able to customize your table by choosing the base, height, and finish that are just right for your home or office.

Live Edge

Beautifully finished and protected.

Finish options are the same as for our regular furniture. If your Live Edge table will be used for dining, our three coats of polyurethane will protect your table top beautifully from spills.

The stain samples located in our design centers at your Simply Amish dealer render the most accurate depiction of color. Stain samples may also be viewed on the woods and stains page of our website. Please remember your computer monitor may not accurately reflect the actual color of the stain.

Every Live Edge item is unique.

Once a piece is sold, it's gone. So, keep an eye on our website for our latest offerings of Live Edge table tops, benches, and occasional tables. We're constantly expanding our Live Edge selection, adding exciting new pieces.

Soho easy to love. While it may be born in the country, its feet are planted firmly in the city. Where it draws good looks, great lines and a sense of style as big as the Empire State Building.

SHOWN IN CHARACTER CHERRY, HAZELNUT

The Montauk Dining Collection has a casual-coastal/mountain inspired vibe. That's correct, Coastal and Mountain can co-exist perfectly in the world of design. The combination of plank style tops, metal accents, and the new Rough Sawn finish create a timeless, yet relaxed, feel. Think chilling at the lake, skiing in the mountains, or just kicking back with friends.

This style comes standard with Flat Black Pull (68-C-11).

Rough Sawn — Texture is added to two sides of each board prior to construction. Each board in a panel is unique.

SHOWN IN MAPLE, SADDLE

The difference between a piano player who wears a sequined outfit and one who dresses normally but is a master of their instrument, is the difference between a trendy dining table made out of a reclaimed Ethiopian reed boat and our Riverview Dining table. The Riverview invites a continual visual appraisal of its scalloped edges, its hint of a Grecian base, creating a look of substance that transcends trends.

What's in a name? There are cities in Australia, New Zealand, U.K., and the U.S., universities, a park, a peak, warships, and even a lighthouse off the coast of Connecticut with the cognomen. Add Simply Amish's elegant dining table in a rectangular or boat shape top to the list. Wait. Wasn't there a Baron Sheffield who started it all? And there were three of those after the original? Regardless, our Sheffield is fit for your inner Baron or Baroness!

SHEFFIELD BACKLESS BARSTOOLS SHOWN IN CHARACTER CHERRY, HAZELNUT

Sit or spin. Our barstools are available in two basic types — stationary and swivel. On stationary stools, the legs are attached directly to the base, just like a typical chair, while swivel barstools feature hardware that allows the seat to rotate while the legs remain in place.

Stationary and Swivel Barstools are available in your choice of two seat heights — 24" or 30", with a few available in 18".

Stationary Barstool

Swivel Barstool

Welcome to the spin zone.

Standard Swivels: All swivel barstool selections feature this icon, indicating that your selection features a heavy-duty, ball-bearing swivel designed to pivot a full 360˚. These high-quality swivels are made in America and backed by our lifetime guarantee.

Memory Swivels: For a slight upcharge, you can upgrade any Standard Swivel to a Memory Swivel. These deluxe swivels — also backed by our lifetime guarantee — are designed to rotate 90˚ in either direction and return to the forward-facing position whenever the seat is unoccupied.

RUNG GUARDS – OPTION

Protect your investment with our optional Stainless Steel Rung Guards. Installed to protect the finish on the area of the barstool that takes the most abuse, the cross bar. Check price list for availability.

SHOWN IN CHERRY, MOCHA NUT

Natural furniture for a digital world. We don't do iPhones. Or TVs. Or even good old-fashioned stereos. At Simply Amish, we just "do" great furniture, like the exceptional line of entertainment centers you see featured here. In other words, we put our blood, sweat and tears into making furniture that fills your home with beauty. What you put in it after that is your business.

Variety is the spice of life!

With six different styles of glass to choose from, you can dramatically impact the look and feel of your furniture.

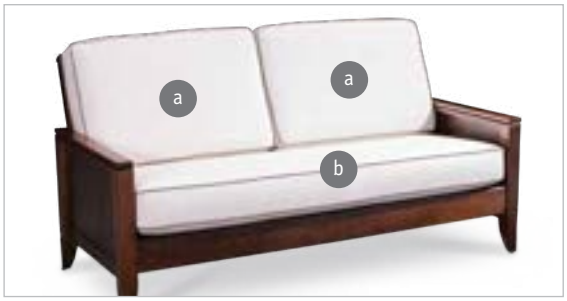
Nothing to Hide. Frankly, we don't mind when folks check us out from behind. Because we know exactly what they'll see — the same quality touches that have made Simply Amish a brand that's synonymous with exceptional furniture design.

Available options

Simply Amish sofas come with a variety of options:

- a 2-Cushion Back
- b Bench Seat
- c Boxed Cushions
- d Contrasting welt



Pillows are for decoration only. They are not included or for sale.

Go ahead. Pull up a chair. And you'll quickly discover why we've earned a reputation for exceptional seating design. From leather chairs, to cozy couches, to rockers right out of a Rockwell painting, we offer a wide range of seating selections perfect for either your home or office.

Sitting is believing. When it comes to seating, we focus heavily in a spot that most folks never see. It's called the deck, and at Simply Amish it's built strong and reinforced for comfort and years of reliable use, providing more upside for your backside. You'll find these features on all non-reclining and stationary seating selections.

- **a** Each deck surface features a strong denim central panel, surrounded by matching cushion fabric.
- **b** Underneath the deck, heavy gauge springs are fastened with clips front-to-back, providing comfort and durability.
- **c** A thick foam core above the springs offers luxurious comfort, while a black cambric bottom provides a barrier against dust.

Qualux Ultra. The Qualux® Ultra Cushion is considered the best seating foam available in the upholstery industry. Resilient when compressed, Qualux Ultra provides exceptional support and increased uniformity from cushion to cushion. And because of its superior quality, it's backed by a limited lifetime warranty. See page 2 for more details.

- **d** The cushion core's high support provides years of comfortable support.
- **e** Polyester fiber offers extra support, along with a luxurious crown.
- **f** Qualux super-soft polyurethane adds to your seating comfort.

If you have to work in an office, you might as well do it in style. From writing desks to executive desks, we offer an extensive collection of desks, cabinets and individual workstation components designed to support a bunch of devices the Amish wouldn't usually use.

SHOWN IN CHERRY, MOCHA NUT

ONCE AGAIN PEOPLE ARE FOLLOWING IN OUR FOOTSTEPS.

For hundreds of years the Amish have gone wireless — what we are wondering is why it has taken so long to catch on. However, now that it has, we are changing the way we make our desks. All desks now come standard without a hole or a grommet in the top surface.

If you would like a hole and grommet in the top surface of your desk, you will need to order the option (SAOGM) and specify the placement of the hole.

CONVERTIBLE DRAWER

Most of our desks come standard with the center desk drawer as our convertible drawer (shown left). The convertible drawer allows for the drawer to be used as either a keyboard pullout drawer or as a pencil drawer. This feature is listed on each desk where standard.

NEW–DESK GROMMET

Solid one-piece wood construction with a smooth, radiused top. Designed to fit directly into a hole without the need for a liner. Please note that these grommets are always finished black.

TASK LIGHT – OPTION

Featuring adjustable brightness levels and a sleek, modern design. This reliable lighting solution enhances productivity and seamlessly integrates into your workspace setting.

Mark the ends as "Exposed" or "Not Exposed."

An end unit that is marked as "Not Exposed" in the drawing will not have molding or baseboard. Therefore, do not add the extra width dimension for the style to that unit.

STEP 1 | CHOOSE SIZE

Note: Ball Bearing Slides - Standard.

Trestle II tables have narrower base uprights, allowing chairs to straddle the base from the sides. Because of this, we're able to offer smaller top sizes with Trestle II bases than with our standard Trestle bases. The original Trestle bases are typically wider and do not allow side seating over the base.
